<https://kvothethm.github.io/portfolio/>

Motivated software and web developer transitioning from a 20-year military career, with a strong foundation in JavaScript, React, Flask, and PostgreSQL. Proven track record of leadership, problem-solving, and delivering results in high-pressure environments. Seeking to leverage my technical skills and collaborative experience in a web or software development role to contribute to innovative projects.

Technical Skills

- **Languages:** JavaScript, Python, HTML5, CSS3, SQL
- **Tools:** Git, Nginx, PostgreSQL, Docker
- **Frameworks:** React, Flask
- **Concepts:** Responsive Design, RESTful APIs, Web Performance Optimization, Agile Methodology

Professional Experience

Front End Web Developer Intern

The Evergreen State College, Olympia, WA

June 2024 - Current

- Developed responsive user interfaces using JavaScript, HTML5, and CSS3, enhancing user engagement across web platforms.
- Collaborated on full-stack web applications using React and Flask, supporting the EDURange project.
- Contributed to Agile sprints and code reviews, improving project timelines and maintaining high-quality code.
- Worked with PostgreSQL databases to manage data flow and implement user authentication features.

Intelligence Advisor

U.S. Army, Camp Humphreys, Korea

January 2018 - Current

- Advised senior intelligence officers on Human Intelligence concerns, influencing key international decisions.
- Led cross-functional teams in delivering critical intelligence reports, utilizing advanced problem-solving skills and high-level communication.
- Developed and conducted training for over 100 personnel, directly improving operational efficiency and compliance.

Operations Manager

US Army, Joint Base Lewis-McChord, WA

January 2015 - January 2018

- Managed operations and logistics for a team of 100+ personnel, focusing on resource allocation and risk mitigation.
- Implemented process improvements that streamlined communication and reduced reporting times by 20%.
- Led training initiatives that improved personnel readiness, with a focus on operational security and compliance with military standards.

Education

The Evergreen State College at Olympia, WA

Bachelor of Arts and Science in Computer Science September 2024

- Relevant Coursework: Data Structures & Algorithms, Web Development, Software Development, Database Management, Cybersecurity
- Capstone Project: Developed a full-stack web application using React and Flask, integrating user authentication and a PostgreSQL database.

Cochise College at Sierra Vista, AZ

A.S. in Military Intelligence Studies June 2016
